CBSE has recently announced that the Class 10 Science theory paper will be conducted based on the syllabus prescribed by the board for the current academic

session. For board exam 2020, the Science question paper pattern has been revised with the introduction of more objective type questions and an increase in the total number of questions from 27 to 30. The structure of the Science question paper will be as follows:

- CBSE Class 10 Science question paper will have 30 questions in all. These questions will be divided into three sections; A, B, and C.
- Section A will have 14 objective type questions comprising MCQs, VSA type, and assertion-reason type questions carrying 1 mark each.
- Section B will have 10 very short answer type questions carrying 3 marks each.
- Section C will have 6 long answer type questions carrying 5 marks each.

The question paper will have no overall choice. However, internal choices will be provided in all three sections of the paper.
